IMPORTANT MESSAGE FROM THE VET DIVISION

While we understand that time gets short during fair season please remember to have your animals appropriately clipped prior to Vet inspection. All animals that enter the grounds unclipped will be checked again at their pens by Veterinary Division staff once they have been clipped to ensure the health of all the participants is at the highest level. Any animals found to have contagious or communicable diseases (ex, Ringworm, etc) at that time will be removed from the barns and penned on their trailer in the quarantine area. Thank you for your understanding in this matter and we wish you an extremely successful show.

Weigh back guidelines:

- Livestock will be allowed a variance around declared weight based on species
- The scale head will only be visible to the designated scale operator
- If an animal weighs outside of the allowed variance, the exhibitor will be given one opportunity to reweigh. The animal must exit the scale and immediately re enter the scale. If the animal weighs outside of the allowed variance a second time, the animal is disqualified
- Once an animal leaves the ring, there will be no reweighs

The scale in the ring is the OFFICIAL scale. The official scale will be available to weigh livestock in the ring until 15 minutes prior to the start of the show. Scales in the barn can be used as reference but are not considered official.
